We submitted our draft renewal documents for the Westchester Town Center BID. I think this will be one of the more straight forward packages you guys receive. There are a few changes / clarifications that we've talked about with staff but understand the documents are still under review by "city clerk management." If you can do anything to shake these documents free we would appreciate it. There is probably a line, but the effort on this one should be relatively minor. Thanks for anything you can do.
